	Nurse & midwife density (per 10 000 population)	0.22	Mobile-cellular subscriptions (% population)	—
	Hospital bed density (per 10 000 population)	3	Internet users (% population)	6.3

1. eHealth foundations

National policies or strategies			
	Country response	Global "yes" response [§]	Year adopted
National universal health coverage policy or strategy	Yes	75%	2012
National eHealth policy or strategy	Yes	58%	2015
National health information system (HIS) policy or strategy	Yes	66%	2011
National telehealth policy or strategy	No	22%	N/A
Funding sources for eHealth			
	Country response	Global "yes" response [§]	Funding source %**
Public funding	Yes	77%	25-50%
Private or commercial funding	Yes	40%	25-50%
Donor/non-public funding	Yes	63%	25-50%
Public-private partnerships	Yes	42%	<25%
Multilingualism in eHealth			
	Country response	Global "yes" response [§]	Year adopted
Policy or strategy on multilingualism	N/A	28%	N/A
Government-supported Internet sites in multiple languages	Yes	48%	
eHealth capacity building			
	Country response	Global "yes" response [§]	Proportion**
Health sciences students – Pre-service training in eHealth	Yes	74%	<25%
Health professionals – In-service training in eHealth	Yes	77%	<25%

2. Legal frameworks for eHealth

Policy or legislation – purpose	Country response	Global "yes" response [§]
Defines medical jurisdiction, liability or reimbursement of eHealth services such as telehealth	No	31%
Addresses patient safety and quality of care based on data quality, data transmission standards or clinical competency criteria	No	46%
Protects the privacy of personally identifiable data of individuals irrespective of whether it is in paper or digital format	Yes	78%
Protects the privacy of individuals' health-related data held in electronic format in an EHR	No	54%
Governs the sharing of digital data between health professionals in other health services in the same country through the use of an EHR	No	34%
Governs the sharing of digital data between health professionals in health services in other countries through the use of an EHR	No	22%
Governs the sharing of personal and health data between research entities	—	39%
Allows individuals electronic access to their own health-related data when held in an EHR	No	29%
Allows individuals to demand their own health-related data be corrected when held in an EHR if it is known to be inaccurate	No	32%
Allows individuals to demand the deletion of health-related data from their EHR	No	18%
Allows individuals to specify which health-related data from their EHR can be shared with health professionals of their choice	No	28%
Governs civil registration and vital statistics	Yes	76%
Governs national identification management systems	Yes	65%

3. Telehealth

Telehealth programmes country overview

	Health system level**	Programme type**
Teleradiology	Intl, Reg, Nat, Intm	Pilot, Established
Teledermatology	National, Intermediate	Pilot
Telepathology	National, Intermediate	Pilot
Telepsychiatry	National, Intermediate	‡
Remote patient monitoring	International	Pilot

4. Electronic Health Records (EHRs)

EHR country overview

	Country response	Year introduced
National EHR system	No	N/A
Legislation governing the use of the national EHR system	‡	
Health facilities with EHR	Use EHR	Facilities with EHR %**
Primary care facilities (e.g. clinics and health care centres)	N/A	‡
Secondary care facilities (e.g. hospitals, emergency care)	N/A	‡
Tertiary care facilities (e.g. specialized care, referral from primary/secondary care)	N/A	‡
Other electronic systems	Country response	Global "yes" response§
Laboratory information systems	N/A	35%
Pathology information systems	N/A	18%
Pharmacy information systems	N/A	33%
PACS	N/A	26%
Automatic vaccination alerting system	N/A	10%
ICT-assisted functions	Country response	Global "yes" response§
Electronic medical billing systems	No	58%
Supply chain management information systems	Yes	58%
Human resources for health information systems	Yes	69%

5. Use of eLearning in health sciences

eLearning programmes country overview

Health sciences students – Pre-service	Country response	Global "yes" response§
Medicine	N/A	58%
Dentistry	N/A	39%
Public health	N/A	50%
Nursing & midwifery	N/A	47%
Pharmacy	N/A	38%
Biomedical/Life sciences	N/A	42%
Health professionals – In-service	Country response	Global "yes" response§
Medicine	Yes	58%
Dentistry	No	30%
Public health	Yes	47%
Nursing & midwifery	No	46%
Pharmacy	No	31%
Biomedical/Life sciences	No	34%

6. mHealth

mHealth programmes country overview

Accessing/providing health services	Health system level**	Programme type**
Toll-free emergency	‡	‡
Health call centres	Reg, Nat, Intm, Loc	Established
Appointment reminders	Intermediate, Local	Pilot
Mobile telehealth	Reg, Nat, Intm, Loc	Established
Management of disasters and emergencies	National, Intermediate, Local	Established
Treatment adherence	Reg, Nat, Intm, Loc	Established
Accessing/providing health information	Health system level**	Programme type**
Community mobilization	Reg, Nat, Intm, Loc	Established
Access to information, databases and tools	Reg, Nat, Intm, Loc	Established
Patient records	National	‡
mLearning	Reg, Nat, Intm, Loc	Pilot, Established
Decision support systems	Local	Established
Collecting health information	Health system level**	Programme type**
Patient monitoring	National, Intermediate, Local	Established
Health surveys	Reg, Nat, Intm, Loc	Established
Disease surveillance	Reg, Nat, Intm, Loc	Established

7. Social media

Social media and health	Country response	Global "yes" response [§]	Year adopted
National policy or strategy on the use of social media by government organizations	Yes	18%	2015
Policy or strategy makes specific reference to its use in the health domain	No	5%	
Health care organizations – use of social media	Country response	Global "yes" response [§]	
Promote health messages as a part of health promotion campaigns	Yes	78%	
Help manage patient appointments	—	24%	
Seek feedback on services	Yes	56%	
Make general health announcements	Yes	72%	
Make emergency announcements	Yes	59%	
Individuals and communities – use of social media	Country response	Global "yes" response [§]	
Learn about health issues	Yes	79%	
Help decide what health services to use	Yes	56%	
Provide feedback to health facilities or health professionals	Yes	62%	
Run community-based health campaigns	Yes	62%	
Participate in community-based health forums	Yes	59%	

8. Big data

Policy or strategy – purpose	Country response	Global "yes" response [§]	Year adopted
Governing the use of big data in the health sector	No	17%	N/A
Governing the use of big data by private companies	No	8%	N/A
